Naperville Amtrak Station -

Parking permits are required. Amtrak provides free parking permits to their ticketed passengers for parking in the City of Naperville Burlington commuter parking lot on the north side of the tracks. Obtain your parking permit from an Amtrak agent during ticketing hours. You may wish to visit the station the day before you depart due to your departure time and the agent ticketing hours to obtain your parking permit.

Person displaying a valid Amtrak permit may park with no time restrictions in designated locations. There are six designated Amtrak parking spaces near the tracks that are on a first-come, first-serve basis. Additional parking is available in the Burlington commuter lot in spaces without assigned numbers however; an Amtrak parking permit is still required.
